The Chartered Environmentalist Practice Direction is one of a series of Practice Directions which has been approved by the Board of the Society. All developments and amendments will also be approved by the Board.

Edition Control

Edition	Revision date	Notes
1.00	January 2011	Replacement Practice Direction for PD1.
2.00	April 2011	Temporarily removed Grandparent Route and Eminent Practitioner Route, and all flowcharts.
2.1	May 2011	Incorporated changes to Competences and eligibility.
2.2	June 2011	Further amendments to eligibility criteria – removal of the 12-point criteria.
3.00	June 2011	Grandparent route reinstated. Eminent Practitioner Route reinstated.
3.1	September 2011	Includes highlighted text where final amendments need to be agreed by the RA.
3.2	October 2011	Includes highlighted text for final review - agreed by the RA on 28th September
3.3	October 2011	Includes highlighted text for final review – agreed by the RA at a teleconference on 27th October.
3.4	November 2011	Includes final changes to document approved by the RA on 2nd November.
3.5	September 2012	Incorporating subsequent minor drafting amendments agreed by the RA on 25th July 2012
3.6	October 2012	Incorporating a glossary and minor amends from the CEO and reviewed by the RA Oct 2012
3.7	December 2014	updated to include amendment to remote PRI process agreed by SocEnv Council on 3rd December 2014
4.0	October 2017	Full review to identify potential Charter, Bye-law and Regulation changes

Definitions

In this Practice Direction, the terms below have the meanings listed against them, and are shown in **bold type** throughout the document.

Appeal Panel	Three members of the Registration Authority appointed to consider appeals against a Licensed Body's conduct of an assessment process (see paragraph 6.3).
Assessment sheet	The official record of the outcome of an assessment drawn up by the Assessors (see paragraph 3.2.6).
Assessors	Two Chartered Environmentalists appointed to assess CEnv candidates through the assessment process.
Board	The governing body of the Society for the Environment , howsoever known.
Code of Professional Conduct	The Code of Professional Conduct of the Society for the Environment set out in section 7 of this Practice Direction.
Competences	The competences, as interpreted by the Licensed Body and agreed with the Society for the Environment, that an applicant must demonstrate to be registered as a Chartered Environmentalist. Generic versions are set out in the Appendix to this Practice Direction.
Eligibility Criteria	The criteria specified in Section 2 of this Practice Direction.
Final Appeal	An appeal against a determination of the Registration Authority dismissing an appeal against a Licensed Body's conduct of an assessment.
Final appeal panel	Three members of the Board appointed to hear a final appeal .
Investigation Committee	A committee comprising the SocEnv Chair and the Chief Executive Officer appointed to consider a final appeal and make recommendations to the Board .
Licensed Body (LB)	A professional institution or association that has been licenced by the Registration Authority to register its members as Chartered Environmentalists and/or Registered Environmental Technicians.
PRI Panel	At least two Chartered Environmentalists appointed by a Licensed Body to conduct a Professional Review Interview .

Professional Review Interview	The interview that forms part of the process of assessing applicants for registration.
Registration Authority	The part of the Society for the Environment that exercises the powers of registration allotted to it by the Society's Royal Charter.
Reinstatement window	The period of three years following people who have left the register can be reinstated without further assessment or interview.
Relevant work-based practice	Experience that can be considered in assessing an applicant for registration as a Chartered Environmentalist, described in more detail in section 2.2
Route	The route to registration provided for under this Practice Direction, namely the Professional Review Interview route .
Society for the Environment	The body established by Royal Charter in 2004 to promote the advancement of, the dissemination of, knowledge of and education in good environmental practice for the public benefit, and which licences bodies to assess and register Chartered Environmentalists and/or Registered Environmental Technicians.

1 Introduction

- 1.1 A Chartered Environmentalist (CEnv) is a professional who has been registered as such by a **Licensed Body** after demonstrating that he or she applies a high level of environmental knowledge, understanding and skills to protect and enhance the environment in a sustainable way. Registration as a CEnv recognises the level of professional practice among people operating within the different environmental disciplines and knowledge bases found within the domains of the **Licensed Bodies**.

This document specifies:

- (a) The **eligibility criteria** to be met by applicants for registration as a CEnv
 - (b) The **competences** that must be demonstrated by applicants for registration as a CEnv – see Section 3 for detail of CEnv competences.
 - (c) The available **route** to registration as a CEnv
 - (d) The **conduct** required of CEnvs
- 1.2 Successful applicants for registration shall be entitled to use the title Chartered Environmentalist and the designatory letters CEnv after their names.

2 Eligibility Criteria for Chartered Environmentalist

To be eligible for registration an applicant must meet the following **criteria**. He or she must:

- (a) be a professionally qualified individual member, or equivalent, **CIWM** (ie Member or Fellow), bringing the applicant within that body's Code of Conduct and disciplinary procedures;
- (b) have acquired a level of knowledge equivalent to a Master's level degree. The equivalent level of knowledge will be determined by the **CIWM**;
- (c) possess sufficient relevant, practical experience to be able to demonstrate the **CEnv competences**. The sufficiency of experience will be determined by the **CIWM**;
- (d) be willing to comply with the Society's **Code of Professional Conduct**; and
- (e) be willing to comply with the requirements of **CIWM** and the **Society** relating to Continuing Professional Development. Please refer to competence Group D in Appendix.

2.1 Academic Qualifications

Relevant academic qualifications and their levels shall be determined by **CIWM**. Relevance will be guided by the environmental and sustainable development content of the applicant's courses, and its alignment to the CEnv competences in Groups A and B in the Appendix.

2.2 Practical Experience

- 2.2.1 Each applicant for registration shall ordinarily have at least the equivalent of four years' full-time **relevant work-based practice**. This need not be continuous.
- 2.2.2 To be considered as relevant, work-based practice must have a direct and distinct environmental focus and/or context. Please refer to CEnv competence Group C in the Appendix.
- 2.2.3 The **relevant work-based practice** may comprise paid employment, voluntary activity, academic work placements or applied research, but may not include pure academic study only.
- 2.2.4 Experience that develops general professional competences, for example, general communication and presentation skills, research skills and project management skills may be included at the discretion of the **CIWM**, and in proportion to the CEnv competences. – see Group C in the Appendix.
- 2.2.5 The nature of **relevant work-based practice** will reflect the domain of **CIWM**, but it is a requirement that it should be environmental in nature and clearly reflect the CEnv **competences**. **CIWM** may consult the **Registration Authority** for further determination of relevance.

3. CEnv Competences

Applicants must demonstrate how they meet each of the following 12 competences.

A Application of Knowledge and Understanding of the Environment to Further the Aims of Sustainability

A1 Have underpinning knowledge of sustainability principles in the management of the environment.

This normally includes the ability to:

- Critically analyse, interpret and evaluate complex environmental information to determine sustainable courses of action.
- Understand the wider environmental context in which the area of study or work is being undertaken.
- Understand the importance of maintaining and enhancing natural cycles and biodiversity in achieving sustainability.
- Reformulate and use practical, conceptual or technological understanding of environmental management to develop ways forward in complex situations.

A2 Apply environmental knowledge and principles in pursuit of sustainable environmental management in professional practice.

This normally includes the ability to:

- Conceptualise and address problematic situations that involve many interacting environmental factors.
- Determine and use appropriate methodologies and approaches.
- Critically evaluate actions, methods and results and their short and long-term implications.
- Actively learn from results to improve future environmental solutions and approaches, and build best practice.
- Negotiate the necessary contractual and agreed arrangements with other stakeholders.

A3 Analyse and evaluate problems from an environmental perspective, develop practical sustainable solutions and anticipate environmental trends to develop practical solutions.

This normally includes the ability to:

- Analyse and evaluate problems, some complex, from an environmental perspective working sometimes with incomplete data.
- Demonstrate self-direction and originality in tackling and addressing problems.

- Demonstrate a critical awareness of current environmental problems and anticipate the impact of future environmental trends.
- Critically analyse and embrace new environmental information and seek new knowledge, skills and competences in the field of environment based on the most recent scientific, social, economic, cultural and technical developments and understanding.

B Leading Sustainable Management of the Environment

B1 Promote behavioural and cultural change by influencing others to secure environmental improvements that go beyond minimum statutory requirements.

This normally includes the ability to:

- Develop good practices [best practice] by actively learning from results to improve future environmental solutions and approaches.
- Help, mentor and support others to understand the wider environmental picture.
- Advocate sustainability concerns and environmental issues, encourage others to actively contribute to environmental protection and sustainability

B2 Promote a strategic environmental approach.

This normally includes the ability to:

- Demonstrate self-direction and originality in developing strategies for sustainable development and environmental improvement.
- Actively collaborate and engage with other disciplines and stakeholders and encourage multi- and inter-disciplinary approaches to environmental challenges.
- Identify constraints and exploit opportunities for the development and transfer of environmentally appropriate technology.
- Identify areas of uncertainty and risk including health and safety, environmental, technical, business and reputational.

B3 Demonstrate leadership and management skills.

This normally includes the ability to:

- Exercise autonomy and judgement across environmental and sustainability issues.
- Motivate and influence others to agree and deliver environmental objectives.
- Identify individual needs, plan for their development, assess individual performance and provide feedback.
- Reflect on outcomes, identify and pursue improvements on previous practice.

C Effective Communication and Interpersonal Skills

C1 Communicate the environmental case, confidently, clearly, autonomously and competently.

This normally includes the ability to:

- Deliver presentations to a wide spectrum of audiences.
- Lead and sustain debates.
- Contribute to and chair meetings and discussions.
- Identify, engage with and respond to a range of stakeholders.

C2 Ability to liaise with, negotiate with, handle conflict and advise others, in individual and/or group environments (either as a leader or member).

This normally includes the ability to:

- Understand the motives and attitudes of others and be aware of different roles.
- Influence decision-making.
- Seek the opinions and contributions of others
- Promote development opportunities and activities.
- Champion group decisions and manage conflict for the achievement of common goals and objectives.

D Personal Commitment to Professional Standards, Recognising Obligations to Society, the Profession and the Environment

D1 Encourage others to promote and advance a sustainable and resilient approach by understanding their responsibility for environmental damage and improvement.

This normally includes the ability to:

- Inform and encourage others to consider environmental sustainability issues and the consequence of their decisions and actions.

D2 Take responsibility for personal development and work towards and secure change and improvements for a sustainable future.

This normally includes the ability to:

- Recognise the value of CPD to the profession.
- Have a strong desire to learn.
- Value and actively pursue personal professional development.

D3 Demonstrate an understanding of environmental ethical dilemmas.

This normally includes the ability to:

- Understand the nature of professional responsibility.
- Identify the environmental ethical elements in decisions.
- Address and resolve problems arising from questionable environmental practice.

D4 Comply with relevant codes of conduct and practice.

4 Registration Process

Form of Application

- 4.1 Candidates applying for registration should complete the application form in Appendix 2 of this document, and submit it together with their supporting documentation, including their Professional Report, and a cheque to the value of £94 made payable to the Chartered Institution of Wastes Management (This sum is made up of the £42 initial Registration Fee, and £10 Administration Charge.) A retention fee of £42 will be payable when the CEnv registration is approved. Once entered on the Register, future Annual Retention Fees will be collected with the CIWM Annual Subscription.
- 4.2 An applicant for registration shall complete the application form in Appendix 2 demonstrating that they satisfy the eligibility criteria for registration as a CEnv. The application form also includes a commitment to Continuing Professional Development and to the Code of Professional Conduct, and a signed agreement that personal information provided in connection with the application may be stored electronically and used for contact purposes by the Society for the Environment.
- 4.3 Applicants are encouraged to send in their application electronically to membership@ciwm.co.uk. Fees can be paid by calling the Membership Services Department and you will be sent an invoice.

The Professional Report

- 4.4 The accompanying CV and report should be a substantial document that demonstrates the relevance of the applicant's qualifications and experience, and should be written in the first person.
- 4.5 The first part of the report will be a career review and should demonstrate how the applicant's work experience and career to date have led to a level of all-round professional competence. It should include:-
- Discussion of previous and present posts in chronological order;
 - Demonstration of how the competences have been achieved, breadth of knowledge has been developed and how the Applicant is engaged in sustainable management of the environment; and
 - Evidence of academic qualification with details of specific training courses attended.
- 4.6 The second part of the report will be a review of relevant projects or specified activities demonstrating competence. It should relate to actual work for which the applicant has been personally responsible and can be taken from more than one project or activity. The report must be cross referenced against the achievement of the element of competence. These competences are at the heart of the process been designed to measure vocational training, experience and awareness.
- 4.7 The CV should give details of qualifications and relevant employment/experience, including a job description for the candidate's present post. Employment details should be listed in reverse chronological order.

- 4.8 All reports shall be validated by at least one mentor, sponsor or supervisor, from the candidate's current or previous employment, who shall confirm that the report represents the applicant's own work.
- 4.9 If the written application does not demonstrate that the applicant meets the eligibility criteria or has the competences required for registration, CIWM will write to the applicant giving reasons for its view, and shall not proceed to the Professional Review Interview.

The Professional Review Interview

- 4.10 Where **CIWM** is satisfied that the written application demonstrates *prima facie* that the applicant meets the **eligibility criteria** and has the **competences** required for registration it shall conduct a **Professional Review Interview**.
- 4.11 **CIWM** shall appoint at least two Chartered Environmentalists to conduct the **Professional Review Interview**. **CIWM** may invite a Chartered Environmentalist from another **Licensed Body** to be a member of the **PRI Panel**.
- 4.12 A **Professional Review Interview** may be conducted using video-conferencing or other facilities that enable the participants to see and hear each other, providing **CIWM** has robust protocols in place for this process. Telephone interviews or interviews using any medium by which the participants cannot see each other are not allowed. In all cases, whether the interview is conducted remotely or not, **CIWM** shall take appropriate steps to satisfy themselves of the identity of the applicant participating in the interview.
- 4.13 The **Professional Review Interview** may be held anywhere in the world. Subject to the exception provided in paragraph 4.12 above it shall be conducted face-to-face and last for between 40 and 60 minutes. The format of the interview shall enable the applicant to demonstrate fully their knowledge, competence and engagement and shall give the interviewers the opportunity to seek as much evidence as will satisfy them of the applicant's competence. The interview will therefore normally consist of the follow:
- Greeting and introductions
 - Presentation on a specific project that gives a practical demonstration of how candidates meet the key competences
 - Career Report review
 - Achievement of competence elements
 - Summing up questions.
- 4.14 A Professional Review Interview may be conducted using video-conferencing or other facilities that enable the participants to see each other, providing **CIWM** has robust protocols in place for this process. Telephone interviews or interviews using any medium by which the participants cannot see each other are not allowed. In all cases, whether the interview is conducted remotely or not, **CIWM** shall take appropriate steps to satisfy themselves of the identity of the applicant participating.
- 4.15 **CIWM** organises Interviews for those applying for full membership of **CIWM**, twice a year, in every Regional Centre. Dates of interviews appear in the monthly Journal and are on the **CIWM** website

www.ciwm.co.uk. CEnv **Professional Review Interviews** will be held on the same days as **CIWM** interviews. The **Professional Review Interview** may be for the CEnv qualification only if the candidate is already a member of **CIWM**, or be conducted concurrently with an application for Full Membership of **CIWM**.

Assessment

- 4.16 The **PRI Panel** shall assess the applicant against each and all of the CEnv **competences** using the evidence obtained from the written submission and the **Professional Review Interview**. The **PRI Panel** may recommend that the applicant should be registered as a Chartered Environmentalist only if it is satisfied that he or she has demonstrated all the **competences** to a satisfactory level.
- 4.17 The assessment by the **PRI Panel** shall be recorded on an **Assessment Sheet** that clearly records evidence of demonstration of the competences. The **Assessment Sheets** shall be held by the **Licensed Body** for a minimum of six years from the date of the **Professional Review Interview**.
- 4.18 The assessment by the Panel will be recorded on an Assessment Score Sheet found in Appendix 1.

Post-Assessment

- 4.19 On completion of an assessment, after the recommendation of the **PRI Panel** has been ratified, **CIWM** shall advise the applicant in writing of the outcome, normally within three months. An Applicant who is dissatisfied with the results may lodge an Appeal in accordance with (Appeal Section 6).
- 4.20 **CIWM** shall advise unsuccessful applicants of their right to **appeal**.
- 4.21 If a registered Chartered Environmentalist is suspended from registration by a **CIWM** for failure to pay registration fees or any other reason, **CIWM** shall notify the **Society for the Environment** of the date of suspension. The **Society for the Environment** shall forthwith cause his or her name to be added to a list of suspended registrants maintained for the purpose.
- 4.22 A former registrant who has been deferred and who becomes eligible for reinstatement within the period of three years following the date of notification of suspension by **CIWM** (the “**reinstatement window**”) may be reinstated without further assessment or interview. Re-instatement after the **reinstatement window** should be made only after an interview has been conducted with the former registrant to establish to the satisfaction of **CIWM** that the competences are still met.

5 Continuing Professional Development

- 5.1 Continuing Professional Development (CPD) is defined as 'the systematic maintenance improvement and broadening of knowledge and skill, and the development of personal qualities necessary for the execution of professional duties throughout working life'.

- 5.2 Throughout a professional career personal development is essential to achieve and enhance virtuosity. Evidence of CPD provides a demonstration of commitment to professional practice.
- 5.3 Chartered Environmentalists must build on prior experience and will be responsible for managing their CPD, in accordance with the programme specified by CIWM. This will include taking appropriate action to update skills relevant to their job and career interests. They will be aware of:
- The professional, commercial and legal requirement for evidence of CPD;
 - The ways of providing evidence of commitment to CPD; and
 - The requirement to provide suitable evidence of commitment to CPD.
- 5.5 Chartered Environmentalists shall take responsibility for the management of their CPD by:
- Identifying and prioritising their development needs and opportunities;
 - Using appropriate guidelines from their Licensed Bodies together with competence benchmark/standards;
 - Planning and carrying out development action using a range of appropriate learning opportunities;
 - Recording development achievements; and
 - Evaluating achievements and reviewing against needs.
- 5.6 A Chartered Environmentalist shall offer support for the learning and development of others by:
- Acting as a mentor;
 - Encouraging employers to support professional development;
 - Sharing professional expertise and knowledge; and
 - Contributing to the activities of others

6 Appeals

- 6.1 **CIWM** shall provide feedback to unsuccessful applicants based on information recorded by the **PRI Panel**, and shall inform them that there is a right of appeal. **CIWM** shall consider and determine any appeal received in accordance with its own procedures.
- 6.2 An appellant whose appeal to **CIWM** is dismissed and who is dissatisfied with the conduct of the process may make a further appeal to the **Registration Authority**.
- 6.3 On receipt of an appeal the **Registration Authority** shall request written submissions from both the appellant and **CIWM**. It shall consider the written submissions, and may dismiss the appeal without further consideration. If it does not dismiss the appeal it shall appoint an **appeal panel** of three of its members which shall hear the appellant and the Licensed Body and shall determine the appeal.
- A determination shall be in writing and shall take the form of either a dismissal of the appeal with reasons or a direction to **CIWM** to re-assess the appellant considering the findings of the **appeal panel** recorded in the determination.
- 6.4 An appellant whose appeal has been dismissed by the **appeal panel** may, if dissatisfied with the conduct of the process, make a **final appeal** to the **Board** of the **Society for the Environment**. On receipt of a **final appeal** the **Chief Executive Officer** and the **Chair** of the **Board** shall be constituted as an

investigation committee and shall request written submissions from the appellant, **CIWM** and the **Registration Authority**, and shall consider them.

- 6.5 The **investigation committee** shall make a written recommendation to the **Board**, with reasons. It is open to the **investigation committee** to recommend that the Board should dismiss the **final appeal** without further process, and the Board may dismiss the **final appeal** based on such a recommendation.
- 6.6 If the **investigation committee** recommends that the **final appeal** should be heard, or if the Board elects not to dismiss the **final appeal** without further process, the **Board** shall appoint a panel of three of its members who have not previously been involved at any level of the appeal, as a **final appeal panel** which shall independently review the case, and may hear the parties. The **final appeal panel** shall make its recommendations in writing to the Board with reasons. The Board shall then determine the appeal. Its decision shall be final and shall be communicated to the parties in writing. The determination shall take the form of either a dismissal of the appeal with reasons or of a direction to **CIWM** to re-assess the appellant considering the findings of the **Board** recorded in the determination. Members of the Board who have been involved at any stage of the appeal process or who have any material connection with **CIWM** shall not be entitled to vote on the appeal.

7 Code of Professional Conduct

Every successful applicant for registration as a Chartered Environmentalist shall be required to sign the **Code of Professional Conduct** of the Society for the Environment as follows:

As a Chartered Environmentalist I will:

- act in accordance with the best principles for the mitigation of environmental harm and the enhancement of environmental quality;
- strive to ensure that the uses of natural resources are fair and sustainable taking account of the needs of a diverse society;
- use my skills and experience to serve the needs of the environment and society;
- serve as an example to others for responsible environmental behaviour;
- not engage in conduct involving dishonesty, fraud, deceit or misrepresentation or discrimination; and
- commit to maintaining my personal professional competence and strive to uphold the integrity and competence of my profession.

APPENDIX 1

Candidate Assessment Form

<p>Points to be awarded: 3 = Fully Proficient, 2 = Experienced and has applied knowledge and understanding, 1 = Appreciation and understanding.</p> <p>If the applicant is judged as currently not having enough knowledge and understanding of a particular area of competence, they should be ticked as being referred in the 'Referrals' column.</p> <p>The Assessors are encouraged to record key words on the form during the interview, to help them with scoring and to help to underpin the final recommendation.</p>				
Section	Competency Criteria	Key Words	Score	Referral's
A	Application of knowledge and understanding of the environment to further the aims of sustainability:			
A1	Have underpinning knowledge of sustainability principles in the management of the environment.			
A2	Apply environmental knowledge and principles in pursuit of sustainable environmental management in professional practice.			
A3	Analyse and evaluate problems from an environmental perspective, develop practical sustainable solutions and anticipate environmental trends to develop practical solutions.			
	Total Score Section A			
B	Leading Sustainable Management of the Environment			
B1	Promote behavioural and cultural change by influencing others in order to secure environmental improvements that go beyond minimum statutory requirements.			
B2	Promote a strategic environmental approach.			
B3	Demonstrate leadership and management skills.			
	Total Score Section B			
C	Effective Communication and Interpersonal Skills			
C1	Communicate the environmental case, confidently, clearly, autonomously and competently.			
C2	Ability to liaise with, negotiate with, handle conflict and advise others, in individual and/or group environments (either as a leader or member).			
	Total Score Section C			

D	Personal commitment to professional standards, recognising obligations to society, the profession and the environment			
D1	Encourage others to promote and advance a sustainable and resilient approach by understanding their responsibility for environmental damage and improvement.			
D2	Take responsibility for personal development and work towards and secure change and improvements for a sustainable future.			
D3	Demonstrate an understanding of environmental ethical dilemmas			
D4	Comply with relevant codes of conduct and practice			
	Total Score Section D			
Total Score for section A to D inclusive				
Registration approved if total score is 26 or more. One or more referrals will lead to a candidate not being approved at the time of interview.				
NOTE: In exceptional circumstances where these conditions are not met by a small margin but the Assessors still wish to recommend registration, they may make a positive recommendation, provided they make a case for dispensation from the normal guidelines. This <u>MUST NOT</u> be out of kindness but because there is evidence which cannot be otherwise accounted for on the form.
