Find your next job through WasteRecruit

Since 2003 WasteRecruit has been sourcing and selecting great talent for the resource management, recycling and renewable energy sectors.

All our consultants are degree qualified in an environmental subject as well as being recruitment experts, affiliated to the Recruitment Employment Confederation.

In addition, we employ a business psychologist to support clients with dedicated selection strategies and the delivery of assessment projects.

Market knowledge

With our in-depth knowledge of the market we are well placed to support you in your career move. We are technically astute and knowledgeable about the wider environmental sector.

We can advise you on all aspects of the recruitment process from CV writing through to career planning.

Ethical

We understand how the market works and we understand the impact of a poor recruitment decision. We will support you every step of the way to ensure you make the right move.

Call the team today to discuss how we can help you develop your career.
